GENERAL INFORMATION

The North Texas Section of the Water Environment Association of Texas is a Section of WEAT, which is a Member Association of the Water Environment Federation. The WEAT-NTS, like its parent organizations, strives for the advancement of fundamental and practical knowledge concerning the nature, collection, treatment, and reclamation of domestic and industrial wastes; and environmental dispersion of processed domestic and industrial wastes. Other goals include advancement of the knowledge in the evaluation, design, construction, operation and management of these systems, public education, and promotion of sound legislation concerning our environment. In recognition of these goals, the WEAT-NTS offers this Scholarship to those pursuing an education and subsequent career that will further these goals.

The WEAT-NTS Scholarship began in 1996 with an initial endowment from the funds of the North Texas Section of the Water Environment Association of Texas. These funds had been developed over several years through the efforts of the officers and volunteers of the organization with Annual Seminars which served to educate its members about issues and regulations affecting the members. Attendance fees and sponsorship of these seminars allowed the initial endowment of this Scholarship. Annual seminars, donations, and investment growth continue to provide funding for this Scholarship.

Scholarship assistance is paid to recipients in two installments, 50% of the total awarded for the fall semester and 50% for the spring semester. **All recipients are required to provide WEAT-NTS with copies of their official transcripts for the fall semester in order to receive payment for the spring semester. Recipients are required to maintain a 3.0 GPA (or receive a special exemption from the scholarship committee) and be considered a full-time student (generally, enrolled in a minimum of 12 hours per semester) or part-time student (generally enrolled in a minimum of 6 hours per semester).**

SCHOLARSHIP CRITERIA

The Scholarship Committee will use the following criteria in the selection of scholarship recipients:

- Preference will be given to those students who are members of WEAT-NTS or children/dependents of WEAT-NTS members.
- Preference shall be given to students attending a 4-year college or university with accredited degree programs in the field of study, but students attending junior college will also be considered.
- Preference will be given to those students in the following type of degree programs: Biology, Chemistry, Engineering, Environmental Sciences, Computer Science, Management and Public Administration. Other degree programs are not excluded from consideration
- Preference will be given to, A) Those students that maintain a high grade point average and B) Those students that have a high SAT/ACT (or other standard admissions test) score.
- Preference may be given to those students who have demonstrated special accomplishments or achievements and/or who have demonstrated active participation in community service activities.
- Preference may be given to those students who have shown leadership abilities in extra curricular activities.
- Preference may be given on the basis of need.

Submit an application to WEAT-NTS for receipt not later than 5:00 p.m. on August 17, 2007. This is necessary to allow time for proper review and presentation of the award prior to the start of the fall collegiate semester.
